ASSEMBLY INSTRUCTIONS FOR STACKING RACK (SR-1)

When you receive your shipments, compare number of pieces received with your packing list.

1. The Stacking racks are shipped fully assembled from our facility.
2. To place material on the rack, remove the front legs and hold-down bars.
3. Set material on the rack and secure material using the hold-down bars.
4. If stacking multiple racks, replace the front legs. **When stacking the racks refer to safety information below.**
5. **Cable hooks are mounted to the side of the rack, please refer to your cable manufacturer for proper lifting guidelines and weight capacities.**

Safety Notes:

***Weight capacity is 3,000 pounds per individual rack (unstacked).
If stacking 2-3 racks, the weight capacity is 1,000 pounds per rack.***

Racks may only be stacked 3 high.

Follow cable manufacturer guidelines for proper lifting.

Material must be properly secured to racks.
