Assembly Instructions for TT3272 Tilt Table

1. Use the 3/8" x 7/8" bolts and 3/8" nuts to attach the casters and the foot locks to the table base.
2. Using the hardware supplied with the table legs, attach the legs onto the base of the table, making sure that the mounting plates for the support braces face the inside of the table. Do not tighten bolts until you've finished assembling the table.
3. Next, attach the support braces to the table legs using the hardware that came with the table legs.
4. Set table top on top of table legs and attach with remaining hardware.
5. Now that the table is completed, go back and tighten all table hardware.

Safety Note:
Weight capacity is 600 pounds.
Be sure wheel locks are engaged before loading table.
